PROGRAMME URBAN MOBILITY À UNIVERSITÉ PARIS SACLAY (INSTITUT PASCAL SEPT/OCT 2019)

The objective of this event is to gather for three weeks internationally recognized experts for their work on mobility, from the following scientific disciplines: data sciences and AI, human and social sciences and systems engineering. These three weeks will propose thematic workshops and seminars, working groups and reflections, and exchanges with the pilot territories.
Local Organizers: Dominique Barth (DAVID UVSQ/SIHS CNRS), Jakob Puchinger, (CentraleSupélec/IRT SystemX) and Eric Monacelli (LISV).
