VISITE DE ZHENYU LIAO, ENSEIGNANT DE L'UNIVERSITÉ TOHOKU DU JAPON

Zhenyu Liao is a specially appointed assistant professor in the Department of Robotics at Tohoku University, Sendai, Japan. He obtained his Ph.D. degree in mechanical engineering from Tohoku University in September 2022.

His primary research focuses on Human-Robot Interfaces, System Integration, and Mobile Robots. He is dedicated to utilizing robotics to enhance the quality of human life. Currently, his main focus is on assisting individuals, including both healthy individuals and those with visual impairments or mobility disorders, in participating in sports activities such as dancing with the assistance of robotics systems.
