WORKSHOP FSATI À UNIVERSITÉ TUT (AFRIQUE DU SUD OCTOBRE 2019)

F'SATI (French South African Institute of Technology) held a research workshop at the Tshwane University of Technology (Pretoria).

F'SATI (French South African Institute of Technology) held a research workshop at the Tshwane University of Technology (Pretoria).
The purpose of the workshop was to allow all partners to present their research activities in the themes of the Institute and to consider the possible creation of new projects.
The workshop was attended by all the current French Partners (UVSQ, UPEC, ESIEE Paris, University Montpellier) as well as a collaborators from Purdue University and JPL in the USA . The research workshop covered four main themes: Enabled Environment and Assistive Living (SARChI chair), and topics on Innovation.
LISV Participants : A. Benali and E. Monacelli
